## About us

At GBH International Facilities Management LLC, we provide expert solutions to commercial, industrial and residential units. We pride ourselves on our ability to provide varied services under a single roof. This allows us to function on an all-encompassing approach and helps us to cater to all of your facilities management needs.

**Our services are bifurcated into different verticals, all of which follow a unified path of delivering excellence. Our services are segregated into the following:**

- Electromechanical Equipment Installation and Maintenance
- Facilities Management Services
- AC, Ventilation & Air Filtration Systems Installation and Maintenance
- Solar Energy System Installations
- Operation and Maintenance

All of our services are geared towards providing state-of-the-art, feasible solutions that will help you to get rid of any hurdles that are hampering your company's operations and its growth.

## Our Services

GBH International Facilities Management LLC was primarily established to provide expert solutions to Industrial, Commercial and Residential units. We have successfully executed a number of daunting projects for a wide array of clientele.

GBHI delivers as many services as possible in-house. This includes:

- Electromechanical Equipment Installation and Maintenance
- Facilities Management Services
- Home Maintenance Service (Customized maintenance package for villas and retail outlets)
- Building Handover Services
- Commercial Mobilization Services
- Energy Management
- Specialist Supplier Management
- 24/7 Service Centre
- Computer Aided Facilities Management (CAFM) System
- Artificial Intelligence Engineering and Implementation
- Solar Energy System Installations

Our applications are catered to boost the functional performance with end to end automation:

- Customer Web Portal
- Mobile App for Customer and Technicians
- Online Query and Purchase Facility
- 24/7 Computerized Help Desk Functions
- Assets Tagging and Efficiency Monitoring

**Raman V**  
Group CEO

## CEO's message

Since its inception in 2010, GBH International has demonstrated a challenging spirit contributing to business through new technologies and innovative products. We take pride in being able to provide an array of services In-house and also marking a presence across diverse clientele.

Our goal is to become the most preferred Facilities Management partner for our clients by understanding their needs and providing tailor-made and cutting-edge solutions. Through high quality localized services and sustainability, we intend to solve our client multifaceted challenges. Our people are our backbone, and we are committed to ensuring their safety and welfare across all communities and regions.

We strongly believe that proficiency and practicality are essential enablers of a successful facility management solution. We invite you to explore our journey by visiting our website.

## Mission

Combining our bountiful access to high quality, localized services, we aim to provide innovative, sustainable solutions to all of our clients to help them solve their complex problems and challenges. In addition to this, we also aim at enhancing our customers' operations at each and every step of their journey towards success.

## Unique Selling Points

Sheer focus on value creation  
Sustainable products and services  
Technological leverage over the competition  
A treasure trove of localized relations  
Delivery of personalized services

## Vision

We aim to be a leading facilities management services enterprise, providing exemplary service, which is both technologically advanced and environmentally friendly. We want to achieve this goal while being feasible to almost every vertical of industrial, commercial, and residential space.

### Electromechanical Equipment Installation and Maintenance

Our team of dedicated engineers and technicians is focused on providing you with the best electro-mechanical services, which include refrigeration, air-conditioning, and electrical project work.

### Facilities Management Services

With the sole purpose of improving the quality of your operations, we deliver quality support services. Our facilities management services are aimed at enhancing and integrating people, place, process, and technology within your organization's built environment.

### Home Maintenance Service

With expert service, unbeatable pricing, and quick appointment arrivals, we provide effective and efficient services for customized home maintenance solutions.

### Building Handover Services

Our team caters to strict schedules, and provides with high-quality solutions on a planned manner for your building handover services.

### Commercial Mobilization Services

We provide professional consultancy services to property owners to ensure proper handing over process in between both parties (lessor and lessee), which includes preparing snag list, reviewing all assets, preparing RFQ for facilities services requirements, to name a few.

### Energy Management

We provide expert advice and solutions to our clients for optimum utilization of energy as well as environment friendly green options to power their operations.

### Specialist Supplier Management

We act as the managing agent between the owner and the service provider of specialist equipment such as lifts, firefighting equipment, water treatment plants, CCTV & PA systems, etc. This kind of equipment is usually allowed to be maintained by OEM companies.

### 24/7 Service Centre

Our 24/7 Service Centre takes care of all the needs of our clients. We quickly solve any kind of problem that hinders the productive functioning of the facility of our clients.

### Computer Aided Facilities Management (CAFM) System

Our CAFM software platform streamlines facilities management and maintenance services. The solution combines CAD images like floor plans with data analysis to offer a user-friendly view of assets.

### Artificial Intelligence Engineering and Implementation

Here we offer cutting edge energy saving solutions such as our machine learning framework to minimize an equipment's overall energy consumption.

### Solar Energy Systems Installations

We take care of each and everything that goes into installing a roof-top solar energy system. And our solar energy and decentralized energy generation installations are available across varied geographies.

# Facilities Management Services

We are focused on the efficient and effective delivery of support services. With the purpose of improving the quality of your operations; Our efforts are aimed at enhancing and integrating people, places, processes, and technology within your organization's built environment. We optimize the use of facilities within public and private organizations.

Our Facilities Management Services are aimed at comprehensive integration and coordination of your organization's human resources, technology and domain knowledge.

GBH covers two main areas. These are space and infrastructure. Our expert solutions tackle various nuances like planning, design, workplace, construction, lease, occupancy, maintenance and furniture.

Our integrated solutions take into account the day-to-day requirements of our clients, as we aim to provide them with specialized care and maintenance. Some of our services include various tasks such as basic cleanliness, comprehensive housekeeping, maintenance and repair of electrical systems, installation and servicing of air conditioning systems, management of mechanical and plumbing systems (MEP), access control, security, attendant services, canteen management, telephone systems, network systems, and much more.

## Ezedo is a proud initiative by GBH International Facilities Management LLC

Given the continually evolving world's dynamic nature, effective management of facilities and spaces is the key. Our facility management and maintenance services ensure the utmost accuracy of operations, improve comfort and safety, and offer sustainability. It's not just our facilities and spaces that need to be tended to; it's the assets that need proper care too. Making sure that your assets work the way you want them to is what we strive for.

Each asset has a unique function and needs to be looked after based on its specific needs. You need someone who is proficient, knowledgeable and has the right tools. This is where we at Ezedo step in. We understand how a small fault with the smallest of assets could cause a dent in your brand image. Hence, we are equipped with relevant products, tools, and services that help maintain your property.

# Electrical Fittings & Fixtures Services

At GBH, our skilled and qualified team caters to strict schedules, with high-quality electrical solutions. We manage all aspects of your electrical infrastructure, including lighting control, audio systems and more. Furthermore, we also provide assistance for lighting, power, and data installations.

Our services are framed to accommodate a variety of needs, be it any new installation, ongoing maintenance, and of course, service.

Our team comprises of skilled individuals who possess a wide range of commercial experience, and this is the main reason why we are able to fulfill all of our clients' electrical needs.

From design to finish, GBH provides expert solutions that ensure your workplace operates seamlessly and that its electrical systems are perfectly aligned with your operations.

## Sanitary Installations & Pipes Repairing

Plumbing and sanitary installations are important features of any residential or commercial building. To safeguard the hygiene, health and safety of the residents, a well-planned and executed installation and maintenance is essential.

We understand how difficult proper maintenance of piping and sanitation can be. To rid our clients of any unwanted hassles, we at GBH, offer a wide array of services for sanitary installations, pipe repairing, pipe installation and repair services.

# AC, Ventilation & Air Filtration Systems Installation and Maintenance

We provide expert services, unbeatable pricing and quick appointment arrivals to all our clients. We are specialists in the installation and maintenance of any and every kind of ventilation and air filtration system.

Keeping up with our all-encompassing approach, we provide installation and maintenance for Air Conditioning, Ventilations & Air Filtration Systems. These include any and every type of servicing, maintenance, repair and even installation.

Our HVAC services are tailor-made for different settings so that we can help our customers if they operate in a single unit or an entire office building. We provide, high-quality service and our team of professional technicians ensure that cooling, ventilation and filtration systems are running as efficiently as they possibly can. We aim to accommodate your needs as per your likings so that you can explore different approaches to achieve the exact results you want.

Maintenance

# False Ceiling & Light Partitions Installation

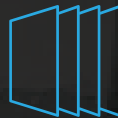

A false ceiling not only conceals a lot of things like wires and fire safety pipes, but also provides benefits like energy efficiency and sound proofing. In the old days, false ceilings were dull and boring, but nowadays they are decorative, designer and functional.

We are your one-stop-shop in the GCC region for all your false ceiling and partition related requirements. Our range of services includes all gypsum related ceiling and partition installations. We also work on designer false ceilings and dry-wall partitions. These can also be altered to fit the exact needs that you might have.

We also have a vast array of designer ceiling tiles that also function as acoustical insulation. Furthermore, we install various types of insulations, including some products that do not require you to dismantle your current ceiling and can be added with minimal disruption. We also provide regular ceiling tiles, which are found in locations like school buildings, labs, hospitals, studios, etc. Thus, you can be rest assured that we can offer the specifications you are looking for in your business.

Installation

# Solar Energy System Installations

We have amassed a practical and diversified experience in the field of rooftop solar energy and decentralized energy generation installations across varied geographies.

Our technicians, who specialize in solar energy, supervise various aspects of the entire installation process. This includes rigorous testing to assess the quality of the product and its performance. All of this is done from a real-life standpoint to make sure that you get the documented performance and nothing else.

We also make sure that we fulfill the due diligence process so that our solar energy system installations execute the performance you desire. Our experience with roof-top solar power installations gives us confidence in terms of what you can expect from a well-installed solar power plant.

## About Group

GBHI Group is operational in the illustrious Emirates of Abu Dhabi and Dubai. It was established to solve varied problems and provide comprehensive, resourceful solutions for a diverse client base, all under a single roof. We are driven by passion, guidance and exemplary leadership. And it allows us to offer various services, including Civil Construction, Infrastructure services, General Trading, Facility Management services and Industrial installations, Aluminum Contracting and MEP Contracting Solutions. We comply with stringent standards, and our team provides service par excellence to enable a seamless transition from the conceptual phase to the construction phase.

GBHI Group takes great pride in its success over the years to truly become an all-encompassing, versatile establishment. However,

this has only made us more humble, and at GBHI, all our operations revolve around people and their needs.

The company fosters a culture of diversity and inclusion in which all employees contribute creative ideas, seek challenges, and grow collectively. Our diverse and inclusive workforce helps us progress and enhance the company's presence in the market and build enduring relationships.

We always ensure to use our technical expertise to create a healthy, prosperous and sustainable future for our people, clients and the environment. Our core values guide us to achieve success in our business journey.
